This questionnaire is fun to complete. It is NOT A TEST. There are no right or wrong answers to the questions. It is about your INTERESTS, and the kinds of things you might like to do in a job after you leave school.

The questionnaire is called the Occupational Interests Guide, and it is divided up into Six Sections. Each Section represents a number of jobs.

You don't answer the whole of the Guide but only TWO of these Sections.

Choosing Sections

Jobs vary a great deal. Some are easy to learn. Others are quite complicated and need a lot of training. Which kinds of jobs are you aiming for? Your choice of Sections depends on three things:-

1. What QUALIFICATIONS you have or think you can get.
2. How much TRAINING YOU ARE PREPARED TO DO.
3. What kind of STUDY (if any) you are willing to do, after you leave school.

Below there is a Table of Sections to help you make up your mind. Read it through and think very carefully before you choose your two Sections.

**YOU MUST CHOOSE TWO TOGETHER** The Sections must be next to each other, so you can choose - A & B, B & C, C & D, D & E, or E & F.

**MARKING YOUR ANSWER SHEET**

Once you have chosen your TWO Sections, you should mark them (in Pencil) on your Answer Sheet. This is called Form P1

You should mark it like this:-

Form P1

Use an HB PENCIL
Mark like this

Rub out mistakes thoroughly

On your Answer Sheet you will see two columns headed like this:-

Before you do the Guide!

A word of advice

SPROG SAYS

The job with

EVERYTHING YOU LIKE 

AND

NOTHING YOU DISLIKE 

DOESN'T EXIST

Every job has a MIXTURE

of things you would

LIKE 

NOT MIND 

DISLIKE

What matters is the BALANCE of

LIKES over DISLIKES

The BEST you can expect

is to find a job with MORE

of the things you LIKE

SPROG SAYS

Of course a lot depends on

Your Attitude

If you LIKE a lot of things

you have a better chance of finding

jobs like these

If you DISLIKE a lot of things

you are likely to find most jobs

will be like this

So when you answer the questions
in the Occupational Interests Guide

Don't say DISLIKE 

unless you really mean it!

If you mean LIKE 

say so!

Say NOT MIND 

if you feel in between
Doing the Guide

The Guide is NOT A TEST

In the booklet are a number of activities; the kinds of things people do in their jobs.

They are always in PAIRS like this:
Grow flowers
Paint pictures

First

Look at each activity and decide if you would like to do that either as a job or as part of a job.

You might

DISLIKE it

You might

LIKE it

You might feel

IN BETWEEN

NOT MIND it

For example:
In this pair, if you liked A and didn't mind B you would mark the boxes under the faces like this:

Grow flowers
Paint pictures

Next

Of the two, decide which one you would pick if you HAD to choose between them.

Of course you might LIKE both
Or DISLIKE both
Or NOT MIND both

But you still have to choose A or B

For example:
In this pair, if you liked A you would probably choose it. Then you should mark the box beside the A like this:

Grow flowers
Paint pictures

Marking your Answer Sheet

It is IMPORTANT to mark your answers in the correct way.

There are three practice questions on your Answer Sheet for you to try. Do those now.

REMEMBER
DON'T SAY DISLIKE UNLESS YOU REALLY MEAN IT

Please do not write on this booklet

Now

Do you understand what you have to do? If not, ASK FOR HELP.

OK. Now turn over the pages till you come to the Sections of the Guide you have chosen, then begin.
