1 INTRODUCTION

The Millennium Cohort Study Sweep 5 (MCS5) Main Stage was carried out using computer-assisted personal interviewing (CAPI) and computer-assisted self interviewing (CASI), both scripted in the software package Quancept. This document is the paper documentation of the computer-based script.

1.1 STRUCTURE OF THE QUESTIONNAIRE

The document covers the following sections of the CAPI questionnaire: the household questionnaire, main respondent questionnaire, partner questionnaire or partner proxy questionnaire. The household questionnaire is the first section of the CAPI and completed by someone in the household over 16 years of age. After collecting information about the household, CAPI determined the main respondent and partner respondent (if applicable). The main respondent interview was carried out with a parent or carer (usually the mother) of the child. The main respondents answered questions via CAPI and CASI which included questions about their child(ren).

The partner interview is a shorter CAPI and CASI questionnaire to be completed by the partner of the main respondent, which is usually the child’s father or father-figure. On occasions where the partner was unavailable during the fieldwork period or incapable of taking part, the main respondent completed a proxy partner interview.

1.2 FEATURES OF THE DOCUMENTATION

1.2.1 Module

The questionnaire is comprised of modules which contain a list of all questions, answer options and routing conditions (or the rules that govern when a question should be asked).

1.2.2 Questions and answers

Each question has been given a unique name that can be identified by its bold, blue formatting. At most questions the respondent was given a pre-defined list, either read out by the interviewer or written on a showcard, from which to choose his/her answer. At other questions the respondent was not offered a pre-defined list and the interviewer codes his/her answer into a pre-defined list or enters it verbatim.

Most questions are single-coded questions, that is, questions where the respondent may only give one answer. Unless otherwise stated, a question is single coded. If multiple responses may be coded, the question will include an interviewer note indicating this, usually ‘CODE ALL THAT APPLY’. However, some answers in multi-coded questions may be exclusive codes, meaning that no other response may be coded in conjunction.

Finally, unless otherwise stated, ‘Don’t know’ and ‘Refusal’ are valid answers at all questions. It is stated in the answers if these are not allowed.

1.2.3 Routing

Routing instructions are fully detailed in italics at appropriate points. The routing condition is both explained in words and given in terms of the logical command. The expressions ‘<’, ‘=’, ‘>’ are used to denote ‘less than’, ‘equal to’ and ‘more than’, respectively. The term ‘<>’ means ‘not equal to’. The routing condition is displayed immediately before the first question to which it applies and is indicated by an ‘IF’ statement. The end of a particular routing condition is indicated by an ‘END OF FILTER’ instruction.

10-030358
29 February 2012
In the routing statements variables or questions will be referred to. If the question is from another module, then the question name will be prefixed by the module name. For instance, ‘HHQRE.ADSA = 2’ indicates that the question ADSA is in the module ‘HHQRE’ (the household questionnaire module). Additionally, if the routing uses ‘feed forward’ information from a prior interview, that variable will be referred to with the prefix ‘FF’.

1.2.4 Textfills

In some cases the text of a question may be varied to take account of particular circumstances by using a ‘textfill’. These possible different wordings are indicated by ‘[^’ and end with ‘]’. When more than one possible textfill appears within a question, they are separated by ‘/’.

1.2.5 Checks

An advantage of CAPI questionnaires is that checks can be included in the program to alert interviewers to potential errors.

A number of checks have been included in the CAPI script. Checks to prevent logical inconsistencies have been included in the household and parent questionnaires. Additionally, where applicable, range checks have been included in both the household and parent questionnaires. These checks alert interviewers to when a value entered (for instance, the year when a respondent moved house) seems unlikely or inconsistent with previous answers, or prevents interviewers from entering a value that is impossible (for instance, a date of birth that is in the future).

1.2.6 Help screens

Some modules contain a help screen, which provides additional information to help interviewers define and code answers. Interviewers may access help screens by coding the appropriate code or entering ‘NULL’.

1.2.7 Income and house value information and unfolding brackets

Some questions in MCS5 ask for specific income information or house value. If respondents are unable or refuse to give a specific amount, they are referred to a series of ‘unfolding brackets’. Unfolding brackets are a series of follow-up questions designed to elicit a defined band within which the true value falls. Unlike conventional brackets, respondents are not presented with a list of ranges to place themselves. Instead, respondents are asked to say whether they have more, less or about the same as a particular value, which is randomly allocated among a set range of values. This question is repeated using different values (which will be higher or lower depending on the answer to which period the amount covers). The procedure stops when either an upper or lower bound is provided, the respondent refuses or says ‘don’t know’, or the respondent places themselves in the top bracket.

The unfolding brackets questions are randomly ordered for each respondent so that any possible ‘anchoring’ effects (i.e. where people use the suggested figure as a reference point and make adjustments to it to reach their answer) from the procedure are averaged across the distribution, and the bracket values are selected on the basis of the density of the underlying financial variable.

When we interviewed you last time you were [*FF economic activity status*] 155.
You mentioned earlier that [*you stopped working for that employer / this period of self-
employment ended / spell of not doing paid work ended/stopped working for that
employer or stopped being self-employed*] 156 in [*MONTH ^YEAR*] 157.

You also mentioned that you are currently [*current economic activity status*] 158 and that
you began [*working for this employer/ this period of self-employment/ this spell of not
doing paid work*] 159 in [*MONTH ^YEAR*] 159.

I’d like to ask about what you were doing between [*MONTH ^YEAR*] 160 and [*MONTH
^YEAR*] 160.

I am interested in spells of employment and not working and any changes of job to a new
employer.

APPENDIX

ADDITIONAL INFORMATION FOR BENEFIT AMOUNTS AND PERIODS:

Jobseeker’s allowance (BENT = 1)
- £68 per week (£106 for a couple)
- Typically paid fortnightly

Income support (BENT = 2)
- Personal allowance - £68 per week (£106 for a couple)
- Additional premiums may also be paid in addition to personal allowance
  - Carer - £31 per week
  - Disability - £29 per week (£41 for a couple)
  - Disabled Child - £54 (plus £22 if ‘enhanced disability’)
  - Enhanced Disability - £14 per week (£20 for a couple)
  - Family - £17 per week
  - Severe disability £55 (per qualifying person)
- Housing costs – income support recipients may also qualify for some
additional payments to cover particular housing costs.

- Typically paid fortnightly

**Incapacity benefit (SIBE = 1)**

- Short term
  - Lower rate - £71 per week
  - Higher rate - £84 per week
  - Adult dependent - £42.65 per week

- Long term
  - £94 per week (plus possible £6 ‘age-addition’)

- Typically paid fortnightly

**Employment and Support Allowance (SIBE = 2)**

- Basic allowance - £68 per week
- Work-related activity component - additional £27 per week so £95 per week in total
- Support component – additional £32 per week so £100 per week in total

**Severe Disablement Allowance (SIBE=3)**

- £70 per week

- Typically paid fortnightly

**Carer's allowance (SIBE = 4)**

- £56 per week

**Disability Living Allowance (SIBE = 5)**

- **Care component**
  - Lower rate - £20 per week
  - Middle rate - £49 per week
  - Higher rate - £74 per week

- **Mobility component**
  - Lower rate - £20 per week
  - Higher rate - £51 per week

**Return to work credit (SIBE = 6 or TCBE = 4)**

- £56 per week

**Attendance Allowance (SIBE = 7)**

- Lower rate - £49 per week
- Higher rate - £74 per week

**Child Benefit (BENT = 1 OR BECH = 1)**

- Only / eldest child - £20 per week
- Other children - £13 per week per child

**Working Tax Credit (TCBE = 1)**
• Typically paid every 4 weeks

**Child Tax Credit (TCBE=3)**

• Typically paid every 4 weeks

**Foster allowance or Guardian allowance (FABE=1)**

• Guardian’s allowance - £14.75 per week
• Foster allowance – minimum of £130 per week

**Maternity allowance (FABE=2)**

• £129 per week

**In-work Credit for Lone Parents (FABE=3)**

• £40 per week

**Statutory Maternity, Paternity or Adoption pay (from your employer or former employer) (FABE=4)**

• Statutory Maternity Pay
  o First six weeks – 90% of average gross weekly income
  o Remaining weeks - £129 per week or 90% of average gross weekly income (whichever is less).

• Statutory Paternity Pay
  o £129 per week or 90% of average gross weekly income (whichever is less).

• Statutory Adoption Pay
  o £129 per week or 90% of average gross weekly income (whichever is less).

**Housing benefit HOBE = 1**

Recent claims will not exceed:
• £250 a week for a one bedroom property (including shared accommodation)
• £290 a week for a two bedroom property
• £340 a week for a three bedroom property
• £400 a week for a four bedroom property

Long-standing claims will not generally exceed these amounts.

**Council tax benefit (HOBE =2)**

Could cover up to 100% of council tax bill.

Up to £3000 per year, £250 per month, £60 per week but will typically be less than
this.

I can’t hear myself think in my home

INTERVIEWER: 'sometimes' = 'neither agree not disagree'
INTERVIEWER: IF OTHERS IN ROOM SAY: You can tell me the number which applies

1  Strongly agree
2  Agree
3  Neither agree nor disagree
4  Disagree
5  Strongly disagree

END OF FILTER

CARU

In total, how many cars or vans are owned, or available for use, by you [or your husband/wife/partner]?

1  One
2  Two
3  Three
4  Four or more
5  None

ARGD

SHOWCARD J4
I’d like to ask you some questions about your area. By area, I mean within about a mile or 20 minutes walk of here.
Is this a good area to bring up children?

1  Excellent
2  Good
3  Average
4  Poor
5  Very poor

ARFR

Do you have any friends or family living in this area?
INTERVIEWER: DO NOT INCLUDE FAMILY/FRIENDS LIVING WITH THEM

1  Yes, friends
2  Yes, family
3  Yes, both
4  No

PLOG
Are there any parks, playgrounds or public spaces in this area where [\(^{\text{Cohort child's name/}}^{\text{cohort child 1 and cohort child 2/}}^{\text{cohort child 1, cohort child 2 and cohort child 3}}\) can play outdoors (either on [\(^{\text{his/her/their}]\) own or supervised)\]?

1   Yes
2   No
Other Matters (OM)
I'd now like to ask a few more questions about some other issues.

**VOTE**

Talking to people about the General Election on the 6th of May 2010 we have found that a lot of people didn't manage to vote. How about you. Did you manage to vote in the General Election?

**NOTE:** IF NOT ELIGIBLE OR TOO YOUNG TO VOTE, CODE AS NO

1   Yes
2   No

**MAIN RESPONDENT ONLY**

**REPEAT <OLYM> FOR EACH COHORT CHILD**

**OLYM**

As you may know, the UK is hosting the London 2012 Olympic and Paralympic Games.

Would you say this has encouraged [^Cohort Child’s name] to take part in sport...READ OUT...

1   ...a lot,
2   a little,
3   or, not at all?
4   Can’t say
