National Child Development Study - Stage 5

Your Life Since 1974

To give us an idea of some of the things you have been doing in recent years, and to help the interviewer complete the main interview with you, we would like you to fill in this questionnaire. Instructions on how to fill it in are given on the next page.

What we want you to do

We would like to know about some of the things that have happened to you in recent years.

It is not always easy to remember details of events that may have happened some time ago, so we are concentrating on just a few things - like leaving school, getting married, the birth of children, changing jobs, changing address and so on. We want you to answer just a few simple questions about each of these topics.

You will see that we are particularly concerned about *when* things happen. We have provided a *Calendar* over the page covering the period we are interested in. We hope that this may help you remember when things happened and in what order, and so make it easier to complete this questionnaire. Your birthday is already marked each year - please mark other dates which are important to you on the calendar if you think it will help you sort things out.

If you can't remember exact dates, please just make the best guess you can, so for instance, if you know you moved house between January and March but can't remember precisely when, then just record it as February.

***Your completed questionnaire
will be collected by our interviewer.***

Please keep it safe!

***We've tried to make this form easy for you to fill in.
If you need help please ask the interviewer
when he/she calls.***
