Introduction

The Millennium Cohort Survey, Sweep 4 (MCS4) was carried out using computer assisted personal interviewing (CAPI) and computer assisted self-interviewing (CASI). The survey instrument is a computer program written in a software package called Blaise. This document is a paper representation of this computer program.

1.1 Structure of the questionnaire

This paper representation covers the following sections of the CAPI questionnaire for MCS3: household questionnaire, main respondent interview, and partner interview (or proxy partner interview).

The household questionnaire was the first section of the CAPI, and was completed by the main respondent or partner from the previous sweep. Information about the household members and availability for interview were collected in this section. At the end of this section, the CAPI would determine which parent was the main respondent and which was the partner respondent.

The main respondent interview was completed by one parent or carer (usually the mother) of the cohort child(ren). The main respondents received a general CAPI and CASI questionnaire that included questions about their child(ren).

The partner interview was a shorter CAPI and CASI questionnaire to be completed by the partner of the main respondent, usually the cohort child's father or father-figure. On occasions where the partner was not available for the entire fieldwork period or incapable of completing an interview, the interviewer was directed to conduct a proxy partner interview.

1.2 Features of the documentation

1.2.1 Module

The CAPI questionnaire comprises modules that contain a list of all the questions, answer options, and the routing conditions or ‘rules’ which govern when a particular question should be asked. In general, the heading of each module summarises the topics covered and gives the module title.

1.2.2 Questions and answers

In CAPI, rather than being numbered, questions are given a unique name which is usually derived from the content of the question. Questions are identified by their bold formatting and the different font type. The text of the question that should be read out by the interviewer is displayed in lower case, with the end of the question usually indicated by a question mark.

At most questions, the respondent chooses his/her answer(s) from a pre-defined list which is either read out to him/her by the interviewer or which he/she reads from a show card presented by the interviewer.

At other times the respondent is not offered a pre-defined choice of answer categories. Instead the interviewer codes their spontaneous response into a pre-defined list of answers.
Alternatively the interviewer may be asked to record the verbatim answer, which then appear in a ‘STRING’ rather than ‘Number’. At ‘STRING’ answers, the number of characters allowed is limited (although interviewers can, where necessary, enter more characters in an electronic memo). For instance, in the documentation ‘STRING60’ indicates that a maximum of 60 characters is allowed. At ‘OPEN’ questions, there is no limit on the number of characters. Interviewers may also be asked to enter answers in the form of a date, time or number.

Questions at which a pre-defined list of answers are given can be split into two types: single-coded and multi-coded. Single-coded questions allow only one answer category to be chosen – unless otherwise stated, the question is single-coded. Multi-coded questions are usually identified by a note to the interviewer to ‘CODE ALL THAT APPLY’ and allow more than one answers to be recoded. At some multi-coded questions, one of the answers may be an ‘exclusive code’. This means that if this answer is chosen, no other answers may be chosen at the same time. If this answer is chosen alongside other answers, CAPI activates a check.

Unless otherwise stated all questions also allow ‘Don’t Know’ and ‘Refusal’ answers to be entered. Where these are not allowed, it is stated below the answers.

### 1.2.3 Routing instructions

Routing instructions are fully detailed in italics at appropriate points. The routing condition is both explained in words and given in terms of the logical command. The expressions ‘<’, ‘=’, ‘>’ are used to denote ‘less than’, ‘equal to’ and ‘more than’ respectively. The term ‘<>’ means ‘not equal to’. The routing condition is displayed immediately before the first question to which it applies and is indicated by an ‘IF’ statement. The end of the influence of a particular routing condition is indicated by an ‘END OF FILTER’ instruction.

In the routing statements variables or questions will be referred to. If the question is from another module, then the question name will be prefixed by the module name. For instance, ‘HHQRE.ADSA = 2’ indicates that the question ADSA is in the module 'HHQRE' (the household questionnaire module). Additionally, if the routing uses 'feed forward' information from a prior interview, that variable will be referred to with the prefix ‘FF’ (for 'Feed Forward'). Thus FF.Wkst refers to the variable Wkst (working status) at a prior interview.

### 1.2.4 Textfill

In some cases the text of a question may be varied automatically to take account of the particular circumstances of the respondent using a ‘textfill’. These possible different wordings are defined along with the circumstances in which they are used. In other words, textfills are used to tailor the question wording to the respondent’s circumstances. Textfills are preceded by ‘[‘ and followed by ‘]’. When more than one possible textfill appears within a question, they are separated by ‘\’.

For example, reference to the name of the cohort child or other persons in the household will be documented as [‘Cohort child’s name] and [‘Name of person] respectively.

There are some other common textfills that are used repeatedly throughout the questionnaire:

- [‘he / she], [‘his / her] refer to gender and should be read accordingly
- [‘Date of last interview] refers to the day, month and year of the interview for the Age 5 Survey e.g. ‘15th of June 2006’.
1.2.5 Checks

An advantage of CAPI questionnaires is that checks can be included in the program to alert interviewers when an unlikely or impossible response has been entered.

'Hard' checks can be used to prevent logical inconsistency (for example so that a child cannot be older than his / her parents). In such circumstances, a warning screen is activated to alert the interviewer to the problem. The interviewer cannot bypass hard checks - they must identify the problem and resolve the discrepancy before proceeding.

'Soft' checks are used to bring improbabilities to the attention of the interviewer. For example, if the weight of the child is higher or lower than expected. In such situations the interviewer is instructed to investigate the improbable answer and make any necessary corrections. If the interviewer is confident that the information given is correct, they may suppress the warning and continue with the interview.

Most modules contain checks so that interviewers can resolve/check them with the respondents during the course of interview. Checks are referenced at the question at which they occur (e.g. Check FC1) and specified in detail at the end in this documentation.

1.2.6 Help screen

Some modules contain a help screen, which is a text box providing additional information to facilitate defining and coding answers during the interview. The help screen is activated by the interviewer by pressing F9. Help screens are indicated and described at the question at which they occur.

1.2.7 The Code Book

At some questions in CAPI, respondents are given the opportunity to choose an ‘other’ answer and have this answer entered as STRING or OPEN text by the interviewer. Coding of these texts was conducted in the post-fieldwork data work, and this often involved creating additional codes for questions. Details of the coding can be found in the accompanying ‘Code book’. The questions affected are indicated in the documentation at the questions themselves, with the statement ‘Please refer to the Code book’.

1.2.8 Income information and unfolding brackets

A feature of the income questions (gross, net and usual) in MCS4 is the use of unfolding brackets. Income information is collected by initially requesting an exact answer and then following up with a series of what are referred to as “unfolding brackets”. Unfolding brackets operate by asking respondents who are unable or refuse to give an exact answer a series of follow up questions designed to elicit a minimum and maximum number defining a range or ‘closed band’ within which the value lies. Unlike conventional brackets, respondents are not presented with a list of ranges within which to place themselves. Instead, on entering the unfolding brackets, respondents are asked to say whether they have more, less or about the same as a particular value. This question is repeated using different values (which will be a lower or higher number depending on the answer to the preceding question).

The procedure stops at the point when either an upper and lower bound is provided, the respondent refuses or says “don’t know”, or the respondent places themselves in the top bracket.
The unfolding bracket questions are randomly ordered for each respondent such that any possible 'anchoring' effects (i.e. where people use the suggested figure as a reference point and make adjustments to it to reach their answer) from the procedure are averaged across the distribution, and the bracket values are selected on the basis of the density of the underlying financial variable.
1.3 Example: documentation

ROMA
How many rooms do you or your family have here, excluding bathrooms, toilets, halls and garages?
ENTER NUMBER OF ROOMS
Range: 1..97

IF partner regularly looks after cohort child  [ParC 1]

PARH
About how many hours per week is [^Cohort child's name] looked after by your [^husband/wife/ partner]?
Range: 0..168

SFDA
SHOW CARD G2
(During the past 4 weeks), how much difficulty did you have doing your usual work, college or other daily activities because of your physical health?
1 None at all
2 A little bit
3 Some
4 Quite a lot
5 Could not do
1.4 Example: help screen

MOAD

Now some questions about where you and [^Cohort child's name or twins' names etc] live. When did [^Cohort child's name or twins' names etc] move to this address?

PROMPT IF NECESSARY: You said earlier that [^Cohort child's name or twins' names etc] moved out of the address where [^he / she/ they] was living at the last interview [^date moved out of address at last interview]

INTERVIEWER: FIRST ENTER YEAR

IF RESPONDENT UNSURE OF MONTH SEE HELP <F9>

Range: 1920..2050

HELP SCREEN

IF RESPONDENT DOESN'T KNOW MONTH ASK : Was it Winter, Spring, Summer or Autumn…? AND ENTER MID-SEASON MONTH

Mid-season months:
Winter: Feb (2)
Spring: May (5)
Summer: August (8)
Autumn: Nov (11)

1.5 Example: code book

EYEP
Has [^Cohort child's name] ever had any [^other] problem(s) with [^his/her] eyesight or [^his/her] eyes?
  1 Yes
  2 No

IF cohort child has ever had eyesight problems  [Eyep = 1]

| EYEX |
| INTERVIEWER: PROBE FOR DETAIL AND WRITE DOWN [^first/second/third] PROBLEM AS RESPONDENT REPORTS IT |
| String255 |
| Please refer to the Code book |
| END OF FILTER |

Indicates that the interviewer should type in the respondent's verbatim answer with a limit of 255 letters

The code book shows the names of the variables and the codes used when the information was 'backcoded' after being collected
1.6 Example: checks

In the main body of the documentation the check is referenced as follows:

**OTPM**
How many other places have you lived at?
Range: 1..97

**CHECK HA3**

Then the check is fully described in the 'Checks' section at the end of the documentation:

**CHECK HA3**

If number of places lived at since last interview answered \([Otpm=RESPONSE]\)

<table>
<thead>
<tr>
<th>IF the number of places is greater than 8 ([Otm&gt;8])</th>
</tr>
</thead>
<tbody>
<tr>
<td>That seems rather a lot (^{Otm}).</td>
</tr>
<tr>
<td>Please check and amend if necessary.</td>
</tr>
</tbody>
</table>

END CHECK

END CHECK

*Indicates a check which interviewer needs to confirm with the respondent*
Questionnaire Documentation
Household Questionnaire (HHQRE)
HOUSEHOLD QUESTIONNAIRE (HHQRE)

A few months ago, you should have received a letter and leaflet about the 'Every tooth tells a story' project. I have been asked to remind you to send back one of your child's teeth if you would like to take part and haven't done so already.

INTERVIEWER:
IF PARENT DID NOT RECEIVE THIS AND WOULD LIKE TO, OR REQUESTS AN ADDITIONAL PACK OF MATERIALS, PLEASE CODE THIS BELOW.

IF THE RESPONDENT HAS ANY FURTHER QUESTIONS ABOUT THIS PROJECT, ASK THEM TO PHONE THE CENTRE FOR LONGITUDINAL STUDIES ON 0800 092 1250

1 Family has already sent back tooth or is intending to in the future
2 Family does not wish to participate
3 Information pack requested

THANK
That is the end of the interview. Thank you for taking part. Before I go, I need to check a few details with you.

1 Press 1 and <Enter> to continue.
**MAIN RESPONDENTS ONLY**

**ASK <ZCMN> FOR EACH COHORT CHILD**

**ZCMN**
Can I check, our records show that ['^Cohort child's name]'s full name is ['^Cohort child's full name from sample file']? Is that correct and complete?

INTERVIEWER: CHECK SURNAME, PARTICULARLY IF NEW PARTNER OR COUPLE HAS SPLIT UP.

COLLECT MISSING MIDDLE NAMES, AND ANY INFORMAL 'KNOWN AS' NAMES

WRITE ANY UPDATES ON THE SAMPLE INFO SHEET. N.B. YOU WILL KEY ANY UPDATES IN THE ADMIN BLOCK LATER

1 Press 1 and <Enter> to continue.

**MAIN RESPONDENTS ONLY**

*IF this person is on the sample file as a previous main respondent or partner*

**ZP1N**
Can I check, our records show that your full name is ['^Parent full name from sample file']? Is that correct and complete?

INTERVIEWER:

CHECK TITLE/ SURNAME PARTICULARLY IF CHANGE IN MARITAL/ RELATIONSHIP STATUS

COLLECT MISSING MIDDLE NAMES, AND ANY INFORMAL 'KNOWN AS' NAME.

WRITE ANY UPDATES ON THE SAMPLE INFO SHEET
N.B. YOU WILL KEY ANY UPDATES IN THE ADMIN BLOCK LATER

1 Press 1 and <Enter> to continue.

ELSE  *{i.e. IF NEW RESPONDENT}*

**ZP1F**
Can you tell me your full name - title, first name, middle name, surname?

INTERVIEWER:

COLLECT ANY INFORMAL 'KNOWN AS' NAME (THIS MAY BE THE NAME GIVEN IN THE HOUSEHOLD GRID)

WRITE ANY UPDATES ON THE SAMPLE INFO SHEET
N.B. YOU WILL KEY ANY UPDATES IN THE ADMIN BLOCK LATER

1 Press 1 and <Enter> to continue.

END OF FILTER
PARTNER RESPONDENTS ONLY

*IF this person is on the sample file as a previous main respondent or partner*

**ZP2N**
Can I check, our records show that your partner's name is [*Partner full name from sample file]*? Is that correct and complete?

**INTERVIEWER:** CHECK TITLE/ SURNAME PARTICULARLY IF CHANGE IN MARITAL/ RELATIONSHIP STATUS

COLLECT MISSING MIDDLE NAMES, AND ANY INFORMAL 'KNOWN AS' NAME

WRITE ANY UPDATES ON THE SAMPLE INFO SHEET N.B. YOU WILL KEY ANY UPDATES IN THE ADMIN BLOCK LATER
1 Press 1 and <Enter> to continue.

ELSE  *(i.e. IF NEW RESPONDENT)*

**ZP2F**
Can you tell me your partner's full name - title, first name, middle name, surname?

**INTERVIEWER:**

COLLECT ANY INFORMAL 'KNOWN AS' NAME (THIS MAY BE THE NAME GIVEN IN THE HOUSEHOLD GRID)

WRITE ANY UPDATES ON THE SAMPLE INFO SHEET
N.B. YOU WILL KEY ANY UPDATES IN THE ADMIN BLOCK LATER
1 Press 1 and <Enter> to continue.

END OF FILTER
ZPHN
Can I check your contact telephone numbers? I've got the following (READ OUT...):

Home: [*home tel number]  
Parent 1: [*Phone number]  
Parent 2: [*Phone number]  
Work : [*Phone number]  
Mobile : [*Phone number]  
Extra numbers : [*Phone number]

PROMPT: Any other numbers?

INTERVIEWER:
CONFIRM OR COLLECT A HOME NUMBER FOR EVERY FAMILY, AND WORK/ MOBILE NUMBERS FOR EACH RESPONDENT. RECORD ON SAMPLE INFO SHEET. N.B. YOU WILL KEY ANY UPDATES IN THE ADMIN BLOCK LATER
IF E.G. NEW PARTNER, DON'T READ OUT FORMER PARTNER'S CONTACT NUMBERS

1 Number(s) given/checked  
2 Number(s) refused  
3 No telephone

IF respondent has a telephone  [ZPhn <> 3]

ZPHONE
A few interviews on any survey are checked by a supervisor to make sure people are happy with the way the interview was carried out. In case my supervisor needs to contact you, may we use one of the telephone numbers for that?

1 Yes  
2 No

END OF FILTER
ZEMM
Do you have an email address? [^Is the one we have from last time still correct (READ OUT): <email address> ]

INTERVIEWER:
WRITE OR UPDATE ON SAMPLE INFO SHEET.
N.B. YOU WILL KEY ANY UPDATES IN THE ADMIN BLOCK LATER

1 Email address given/ previous email address checked
2 Email address refused
3 No email address

PARTNER RESPONDENTS ONLY

ZEMP
Do you have an email address? [^Is the one we have from last time still correct (READ OUT): <email address> ]

INTERVIEWER:
WRITE OR UPDATE ON SAMPLE INFO SHEET.
N.B. YOU WILL KEY ANY UPDATES IN THE ADMIN BLOCK LATER

1 Email address given/ previous email address checked
2 Email address refused
3 No email address
ZCUR
Can I check that we’ve got the details of this address correct?

INTERVIEWER:
READ OUT ADDRESS ON SAMPLE INFO SHEET/ ARF - INCLUDING POSTCODE - AND CORRECT IF NECESSARY

1 Press 1 and <Enter> to continue.

ZSTM
**** CHECK STABLE ADDRESSES ****
Sometime in the next year or two, we may wish to contact you and your family again. In case you move from this address, could you tell me the name, address and telephone number of a relative or close friend we could contact to find out where you are?

INTERVIEWER:
CHECK FIRST WHETHER ANY ADDRESS GIVEN ON THE SAMPLE INFORMATION SHEET STILL APPLIES
WRITE ANY NEW OR CORRECTED ADDRESS ON ARF AT J2.
N.B. YOU WILL KEY THIS IN THE ADMIN BLOCK LATER.

IF RESPONDENT TELLS YOU THAT THEY ARE PLANNING TO MOVE, THIS IS COVERED BY NEXT QUESTION.

1 Willing to give stable contact address - same as Sample Information Sheet - NO corrections needed
2 Willing to give stable contact address - same as Sample Information Sheet - corrections needed
3 Willing to give stable contact address - new address
4 Unwilling to give stable contact address
5 Doesn't want to be contacted again

MOVH
Can I check, are you actually planning to move from this address in the next 12 months?
IF YES: Could you tell me the new address?

INTERVIEWER:
RECORD NEW ADDRESS ON ARF AT K2.
N.B. YOU WILL KEY THIS IN THE ADMIN BLOCK LATER.

1 Yes - new address given
2 Yes - but no new address given
3 No - not planning to move
ZSTP
**** CHECK STABLE ADDRESSES ****
Sometime in the next year or two, we may wish to contact you and your family again. In case you move from this address, could you tell me the name, address and telephone number of a relative or close friend we could contact to find out where you are?

INTERVIEWER:
CHECK FIRST WHETHER ANY ADDRESS GIVEN ON THE SAMPLE INFORMATION SHEET STILL APPLIES
WRITE ANY NEW OR CORRECTED ADDRESS ON ARF AT J3
N.B. YOU WILL KEY THIS IN THE ADMIN BLOCK LATER.

IF ADDRESS GIVEN BY PARTNER IS THE SAME AS ADDRESS GIVEN BY MAIN RESPONDENT, ASK FOR A DIFFERENT ADDRESS
1 Willing to give stable contact address - same as Sample Information Sheet
   - NO corrections needed
2 Willing to give stable contact address - same as Sample Information Sheet
   - corrections needed
3 Willing to give stable contact address - new address
4 Unwilling to give stable contact address
5 Doesn't want to be contacted again
Proxy Partner (PX)
**MAIN RESPONDENTS ONLY**

**PXPQ**
INTERVIEWER: YOU WILL NOW ASK THE RESPONDENT SOME PROXY QUESTIONS ABOUT THEIR SPOUSE/ PARTNER WHO IS EITHER AWAY AT THE MOMENT OR UNABLE TO ANSWER QUESTIONS DUE TO INCAPACITY
1 Press 1 and <Enter> to continue.

**PXRE**
INTERVIEWER ASK OR CODE: Why is a proxy interview rather than a personal interview being conducted?

**CODE ONE ONLY**
1 Father/ Mother/ Partner away in forces
2 Father/ Mother/ Partner working away
3 Father/ Mother/ Partner away in hospital
4 Father/ Mother/ Partner away in prison
5 Father/ Mother/ Partner away for some other reason (specify)

INTERVIEWER: COMPLETE THESE ITEMS AFTER YOU HAVE LEFT THE RESPONDENT’S HOME AND AS SOON AFTER COMPLETING THE CHILD COGNITIVE ASSESSMENT AS POSSIBLE.

IF THE CHILD COGNITIVE ASSESSMENTS WERE NOT STARTED, DO NOT COMPLETE THESE ITEMS
1  Press 1 and <Enter> to continue.

REPEAT QUESTIONS FOR EACH COHORT CHILD

TVNS
About the conditions of [^Cohort child's name]'s cognitive assessment. First, some questions on background noise and disturbances.

During the assessments was there ….
1  No noise from television/radio/stereo
2  Audible but not loud noise from television/radio/stereo
3  Loud noise from television/radio/stereo
4  Not observed/DK

CONV
([^Cohort child's name] : During the cognitive assessments)

Was there…
1  No background conversation
2  Audible but not loud background conversation
3  Loud background conversation
4  Not observed/DK

BACC
([^Cohort child's name] : During the cognitive assessments)

Was there…
1  No background noise and disturbances from other children
2  Some background noise and disturbances from other children
3  A lot of background noise and disturbances from other children
4  Not observed/DK

ENTR
([^Cohort child's name] : During the cognitive assessments)

Was there…
1  No-one entering/leaving the room
2  Someone entering/leaving the room once or twice
3  Someone entering/leaving the room 3 or more times
4  Not observed/DK
ENTH
(*^Cohort child's name*) : During the cognitive assessments

Was there…
1. No-one entering/leaving the home
2. Someone entering/leaving the home once or twice
3. Someone entering/leaving the home 3 or more times
4. Not observed/DK

INTC
(*^Cohort child's name*)

Now some questions about actual interruptions to the cognitive assessments.
During the assessments were there …
1. No interruptions by another child
2. 1-2 interruptions by another child
3. 3 or more interruptions by another child
4. Not observed/DK

INTA
(*^Cohort child's name*) : During the cognitive assessments

Were there…
1. No interruptions by other adult(s)
2. 1-2 interruptions by other adult(s)
3. 3 or more interruptions by other adult(s)
4. Not observed/DK

TIRC
[*^Cohort child's name*]
How was [*^Cohort child's name*] at the start of the cognitive assessments?
1. Very tired
2. A little tired
3. Wide awake
4. Not observed/DK

ASSC
[*^Cohort child's name*]
Is there anything else you would like to say about the circumstances of the cognitive assessments that may have affected [*^Cohort child's name*]'s performance?
1. Yes
2. No
IF interviewer wants to say more [AsSc = 1]

ASSX
[^Cohort child's name]

What else would you like to say?
String: 150
