YPSCINT2

We would like you to answer some questions yourself about different things in your life. We would also like to ask you to give us your mobile phone number and email address. The questions take about 40 minutes to complete. We hope that you find them interesting and enjoy answering them.

It is not a test so there are no right or wrong answers. We just want to find out about your life and what you think. If you don’t want to answer a question that's ok. You can skip it and move to the next one. If you make a mistake or change your mind you can go back and change your answer.

No-one in your family or the interviewer will see your answers and you will not be asked to type your name into the questionnaire. Some questions are about things that not all young people your age will have done. That’s ok – we’re just as interested in what people haven’t done as well as what they have. It’s important that you answer honestly.

Some of the questions are about things that are personal so please make sure you fill in the questionnaire on your own. To make sure no one else can see your answers there is a ‘hide’ button in the top right corner of the screen: press ‘hide the screen’ if you want to blank the screen to keep it private.

If you have any queries about how to use the tablet please ask the interviewer.

If you come to a question that you don’t want to answer that’s ok. You can skip it and move to the next one.
