# 1. Script releases

## 1.1 Household interview

Version 101 - Released 19<sup>th</sup> December 2017

- Launch version

Version 102 - Released 12<sup>th</sup> January 2018

- Fix issued for **issue 1** - script for generating CAWI usernames was fixed. Additionally, it was discovered that the username could not encode all possible combinations of gender identity for three cohort members where one or more cohort members reported a non-binary gender identity. IM and CLS agreed to change the username generation script so that usernames for non-binary CMs would generate female pronouns in the Parent CAWI. The cohort member's CAWI was unaffected by this change.

Version 103 - Released 2<sup>nd</sup> February 2018

- Fix issued for **issue 6** - script error at RES, REE, and RWN when choosing 'don't know' or 'prefer not to say' when inputting dates.
- HH1CK text updated from "THE YEAR SHOULD BE BETWEEN 2014-01-01 and 2016-03-31" to "THE YEAR SHOULD BE BETWEEN 04/01/2018 and 11/02/2019".
- INST1 textfill for 'Hospital, Nursing Home or Similar Institution?' response at RESI trimmed to remove question mark.

Version 104 - Released 26<sup>th</sup> April 2018

- Household grid checks were fixed/updated, see **issue 7** for details.
- Removed the following text from HSTR: "IF THE COHORT MEMBER IS COMPLETING IT WITH ANOTHER HOUSEHOLD MEMBER, CODE AS COHORT MEMBER".
- Changes made to handling of institutional cases. See Appendix 2 for a full summary.

Version 105 - Released 14<sup>th</sup> August 2018

- Updated telephone number at CHCHECK and Over25.
- Amended routing for CHCHECK to { ASK IF RESI = 2, 3, 4, 5, 6, 7, 8, OR 9 }. This change removed routing from NRML ("Does ^[CM name] normally live at this address or normally live somewhere else?") so that CHCHECK is always seen when the interview takes place anywhere except a private residence.
- Added privacy policy text to HSTR (see Appendix 4).

## 1.2 Parent CAWI & SDQ Placement
