

Next Steps – Sweep 9 (Age 32) Questionnaire

TABLE OF CONTENT

Module 1: Household Relationship.....	3
Module 2: Housing.....	116
Module 3: Activities and employment.....	145
Module 4: Finance	205
Module 5: Educational qualifications	273
Module 6: Health	294
Module 7: Identity	318
Module 8: Self Completion	336
Module 9: Data linkage	382
Module 10: Saliva.....	409
Module 11: Contact details.....	415
Module 12: Admin	476

NOTE: Fieldwork was conducted in four waves – a ‘soft launch’ followed by three further waves. Minor edits were made to the questionnaire after the soft launch which took place between April and August 2022. Around 1600 interviews were completed during this phase. Where no changes were made to the routing, instructions or questions, the text is black; where minor changes were made after the soft launch, the text is green.

Module 1: Household Relationship

CAPIMETHOD

{ASK IF CAPI SURVEY}

INFO FOR SCRIPTING:

These questions are to be asked once at the start of the interview and then used to set the METHOD variable below. The questions are routed based on the type of script (CAPI/CATI/CAWI).

QA. INTERVIEWER: SELECT THE METHOD YOU WILL BE USING TO CONDUCT INTERVIEW

1. Standard in home interviewing
2. Telephone with e-showcards

VARLAB: Capi method

METHOD

{COMPUTED FOR ALL}

Scripting: Method to be set once at start of interview and stored in a variable (called METHOD). This variable will be included in final dataset.

DUMMY VARIABLE FOR SCRIPTING ONLY

COMPUTE from script type, QA and QB

1. Online survey: IF accessed via link <https://ipsos.uk/NS32>
2. Online survey via secondary device: IF accessed via link <https://ipsos.uk/NS32SD>
3. Teams interviewing: IF accessed via link <https://ipsos.uk/NS32TEAMS>
4. In home interviewing: IF SCRIPT TYPE = CAPI AND QA = 1
5. Single use show cards: IF SCRIPT TYPE = CAPI AND QA = 2
- 8.No visuals (Tel interviewer): IF SCRIPT TYPE = CATI AND QB = 1

VARLAB: Interview method

INTRO

{ASK ALL}

DISPLAY

Hello {FF_CM_FirstName},

Welcome to Next Steps and thank you for your continuing support to the study!

Completing the questionnaire this time should take around {METHOD= 1-2:60; METHOD=3-6 OR 8:80} minutes, but it can be slightly quicker or longer depending on your circumstances.

As always, taking part is entirely voluntary. If you don't know the answer or don't want to give an answer to a question, you can simply leave it blank and click Next. Your answers are very important to us as they help us understand the issues affecting people of your age today. The information you

19-099767-01 NS32_Full questionnaire_Soft Launch&Main stage_v3_ICU_clean

give will be treated in strict confidence in accordance with the General Data Protection Regulation (GDPR) and used for research purposes only.

Once you have completed the questionnaire a voucher will be provided to you to say thank you for your help with this important study.

Are you happy to proceed with the interview?

1. Yes {Continue}
2. No {End}

VARLAB: Intro for all respondents

INTRO1ACHK
{IF INTRO1A=2 'No {End}'}

You said you would not like to proceed with the interview. Is that correct?

[METHOD 1,2: If this was a mistake and you would like to proceed with the survey 'please select 'No - I would like to continue with the survey'.]

[METHOD 3,4,5,8: If this was a mistake and you would like to continue with the survey let me know].

- 1.Yes - I would like to exit the survey
- 2.No - I would like to continue with the survey (SCRIPTER: RE-ASK INTRO1A) SET DUMMY
INTRO1ACHK_FLAG=2
DK/REF NOT ALLOWED

VARLAB: Consent soft check

CONSENTNO
{INTRO1ACHK=1}

We are sorry you do not want to continue with the survey.

If you have any questions or you would like to complete the survey at another time, please contact Ipsos who will be able help you continue with the survey by email: uk-nextstepssurvey@ipsos.com or Freephone: 0800 152 2516

SHOWCARDS
{IF METHOD=5}

You will need to look the showcards online. Please go to <https://ipsos.uk/NS32showcards>. At certain points in the questionnaire I will read out the showcard number and you will need to look at the list which contains a list of possible answers to the question I ask you.

Can you see the showcards ok?

VARLAB: Showcards instructions - Method 5

COVIDW

{ASK IF participated in at least one COVID-19 survey: CovidW1_Outcome=1 or CovidW2_Outcome=1 or CovidW3_Outcome=1}

Between May 2020 and March 2021 we conducted three 'COVID-19' surveys which focused on how Next Steps study members were affected by the Coronavirus pandemic. Thank you very much for taking part - we really appreciate it.

Some of the questions we ask today will be similar to questions you answered in the COVID-19 surveys. We are asking the questions again because things may have changed for you since you took part in the COVID-19 surveys. Other questions we ask will refer to 'the last time you took part'. By this we mean the last time you took part in a major Next Steps survey, which was in {FF_INTMONTH} {FF_INTYEAR}, rather than when you took part in a COVID-19 survey.”}

ALL HELPSCREEN ‘What counts as living with me?’

Answer 'Yes' for:

- All those who are away from home temporarily (for less than 6 months continuously) - e.g. on holiday, in hospital, for work, in prison
- Children where residence/custody is shared between two parental households or who live some of the time in two parental households - e.g. child staying with another parent every other weekend or every other week
- Children under 16 studying away from home but returning home during school holidays
- Boarders - people who pay rent for a room and for whom meals are provided

Answer 'No' for:

- All those who are away from home for 6 months or more continuously
- All those who are in long-stay institutions for disabled
- Children in care of local authority, in residential home or with foster parents
- Children aged 16 or more studying away from home
- Students living away from home during term-time
- Lodgers- people who rent a room but whose meals are not provided

Module 2: Housing

SCRIPTING: FOR INFORMATION AND NOT TO BE SCRIPTED

Questions using BRACKETS E.G.: REP1

Questions using brackets consist of a series of questions. For the first question in the series the value {e.g. amount} is set to one of the 4 brackets values at random. If the answer is “more than”, the question is re-asked with the amount increased to the next in the series (unless it is already at the highest value). Similarly, if the answer is “less than” the question is re-asked with the amount decreased to the next in the series (unless it is already at the lowest value). Questions continue to iterate in the same vein until respondent chooses ‘about [amount]’, the respondent chooses ‘more than’ followed by ‘less than’ or vice versa, or the respondent codes ‘Don’t know’ or ‘Don’t want to answer’ at any iteration

Data will be presented as follows:

We store the lower, upper values in numeric format (e.g. 390, 570, 800, 1310), with DK and REF stored as codes on the numeric question, so it will be in the data as a variable called QID_codes.

There is also an entry variable which is the starting point of the question, which is also stored in a numeric variable. Please store the derived variables that are specified at each brackets question.

There is also a result variable, which is coded:

- 1 - Complete brackets response
- 2 - DK to first bracket question asked (depends on entry point)
- 3 - Ref to first bracket question asked (depends on entry point)
- 4 - Incomplete brackets - DK at last question. One of Min/Max set
- 5 - Incomplete brackets - Ref at last question. One of Min/Max set

All respondents not routed to the bracket question-should be set to -1 for all these variables.

HINTRO

Module 4: Finance

FOR INFORMATION AND NOT TO SCRIPTED

Questions using BRACKETS E.G. : GAWB, GAFB

Questions using brackets actually consist of a series of questions. For the first question in the series

the value {e.g. amount} is set to one of the 4 brackets values at random. If the answer is “more than”, the question is re-asked with the amount increased to the next in the series (unless it is already at the highest value). Similarly, if the answer is “less than” the question is re-asked with the amount decreased to the next in the series (unless it is already at the lowest value). Questions continue to iterate in the same vein until respondent chooses ‘about [amount]’, the respondent chooses ‘more than’ followed by ‘less than’ or vice versa, or the respondent codes ‘Don’t know’ or ‘Don’t want to answer’ at any iteration

Data will be presented as follows:

We store the lower, upper values in numeric format (e.g. 390, 570, 800, 1310), with DK and REF stored as codes on the numeric question, so it will be in the data as a variable called QID_codes. There is also an entry variable which is the starting point of the question, which is also stored in a numeric variable. Please store the derived variables that are specified at each brackets question.

There is also a result variable, which is coded:

- 1 - Complete brackets response
- 2 - DK to first bracket question asked (depends on entry point)
- 3 - Ref to first bracket question asked (depends on entry point)
- 4 - Incomplete brackets - DK at last question. One of Min/Max set
- 5 - Incomplete brackets - Ref at last question. One of Min/Max set

All respondents not routed to the bracket question-should be set to -1 for all these variables.

UNCR

Soft Launch: {ASK ALL}

Main Stage: {ASK ALL OR IF BENTCHK = 2}

Universal Credit is a benefit which has been introduced. Some people now receive a single Universal Credit payment which replaces a number of other benefits, including: Income based Jobseeker's Allowance, Income-related Employment and Support Allowance, Income Support, Working Tax

Credit, Child Tax Credit and Housing Benefit.

Are you {If CRLIVEPA [LAST ITERATION] =1:"or your partner"} currently receiving Universal Credit?
Include payments you {If CRLIVEPA [LAST ITERATION]=1:"or your partner"} receive jointly with other people.

ALL-HELPSCREEN: I'm not sure if I receive Universal Credit, what should I do?

If you currently receive individual payments for any of the following you do NOT receive Universal Credit at the moment:

- Income based Jobseeker's Allowance
- Income-related Employment and Support Allowance
- Income Support
- Working Tax Credit
- Child Tax Credit
- Housing Benefit

1. Yes

ALL-HELPSCREEN: **What are these benefits?**

Incapacity Benefit: money for people who cannot work because they are sick or disabled. It is being replaced by Employment and Support Allowance.

Employment and Support Allowance: replaced incapacity benefit and is paid to those whose ability to work is limited by ill health or disability

Severe Disablement Allowance: paid to those with a severe disability who have been claiming since 2001.

Disability Living Allowance / Personal Independence Payment: paid to those who need help with the extra costs that arise from long-term health conditions or disabilities. Personal Independence Payments are gradually replacing Disability Living Allowance.

Return to Work Credit: paid to lone parents or those who have not been working because of ill health when they return to work.

Attendance Allowance: for those aged over 65 with a physical or mental disability who need help to pay for personal care.

Industrial Injury Disablement Benefit: paid to those who are ill or disabled because of an accident or disease caused by work or a training scheme

War Disablement Pension: paid to veterans who have any illness or injury as a result of service in Her Majesty's Armed Forces.

Sickness and Accident Insurance: paid by insurance companies to individuals who have taken out insurance schemes to protect themselves if they become ill and unable to work.

1. Incapacity Benefit
 2. Employment and Support Allowance
 3. Severe Disablement Allowance

CAPI INTERVIEWER (IN-HOME ONLY; METHOD = 4): CODE WHETHER ACCEPTED THE SELF-COMPLETION

1. Complete {IF F2F IN HOME (METHOD = 4): 'on the CAPI tablet'; IF F2F TEAMS (METHOD = 3): 'through a web link'}
2. Interviewer to complete because cohort member not able to
Don't know [SCRIPTING: EXCLUDE FROM CODE LIST]
Refusal [SCRIPTING: HIDDEN CODE]

VARLAB: Accepted Self-completion

CASIINTCOM

{IF METHOD = 3 AND CASISTART = 2 OR Refused}

IF METHOD=3 AND CASISTART = 2: "In that case I will show you the questions on the screen so you can read them and tell me your answers. Is that ok for you or would you prefer me to read out each question to you?"

IF METHOD = 3 AND CASISTART = REFUSED: "I can show you the questions on the screen so you can read them and tell me your answers. Would that be OK for you or I can read out each question to you if you prefer?"

1. Cohort member reads questions on screen
2. Interviewer reads out the questions
[REFUSED – Hidden code]

If you don't want to answer any particular questions just let me know and I can skip past it. If possible, it may be best to go somewhere private to answer these questions.

VARLAB: CASI interviewer complete

The following derived variable needs to be set up for routing (it is different to the original SCROUTING):

SCROUTING

1 - METHOD = 1 OR 2 OR 5 OR 8 OR ((METHOD = 3 AND (CASISTART = 1 OR CASIINTCOM = 1 OR 2)) OR (METHOD = 4 AND CASISTART = 1 OR 2) – Label: Ask SC section

2 - (METHOD = 4 AND CASISTART = Refusal) OR (METHOD = 3 AND CASIINTCOM = REFUSED) - Label: SC section refused

VARLAB: Self completion status

CASIINTCOM2

{IF METHOD = 4 AND CASISTART = 2 }

If you don't want to answer any particular questions just let me know and I can skip past it.

TEAMSLINKR

{IF METHOD = 3 AND CASISTART =1}

TEAMS (METHOD = 3): INTERVIEWER: PLEASE SHARE THE LINK WITH THE PARTICIPANT WHO WILL COMPLETE THE SELF COMPLETION IN A SEPARATE WINDOW WHICH YOU WILL NOT SEE.

I will send you a web link to the survey and ID number in the Teams chat shortly. When I send it to you I would like you to open the web link in a separate window to the current one you are using for this Teams call.

On the first screen you will be asked to enter the password and press 'submit'. This will give you access to the survey.

I will stay on the Teams call while you complete the survey in a separate window. Please let me know when you are finished and if you have any questions. I cannot see any of the questions you are answering.

INTERVIEWER: SEND THIS LINK OVER TEAMS CHAT FUNCTION:

[SC log in page link] <https://ipsos.uk/NS32TEAMS>

Can I check – have you got the link and have you opened it in a separate window?

IF YES - I am now going to send you the online password.

INTERVIEWER: SEND THIS PASSWORD OVER TEAMS CHAT FUNCTION.

[LoginID_CM]

Have you got the online password?

IF YES

Please now enter the online password and press the submit button. This will start the survey.

Have you started the survey?

IF YES: Great – I will stay on line while you complete it.

Let me know when you have finished and I will then need to ask you a few more questions.

IF NECESSARY: The first question you should see start with the words 'Hello FirstName10125 - please select 'continue' and press 'Next' to proceed'.

IF COHORT MEMBER REALLY CANNOT ACCESS THE SURVEY THEN YOU WILL NEED TO START THE SURVEY AGAIN ON THE TABLET. TO DO THIS OPEN THE SURVEY LINK <https://ipsos.uk/NS32TEAMS> IN CHROME AND ENTER RGK8JL3. Ask the cohort member to read the questions on screen themselves and just provide you with the answers - to prevent you have to read out all the questions

INTERVIEWER - WHEN COHORT MEMBER HAS FINISHED - OPEN THE SURVEY LINK <https://ipsos.uk/NS32TEAMS> IN CHROME AND ENTER RGK8JL3 TO RESTART THE SURVEY.

HelloResp

Hello {} - please select 'continue' and press 'Next' to proceed.

INHOMAINS

{IF METHOD = 4 AND CASISTART=1}

PASS CAPI TABLET TO PARTICIPANT AND TELL THEM TO FOLLOW THE INSTRUCTIONS ON THE SCREEN AND TO LET YOU KNOW WHEN THEY ARE FINISHED.
PRESS NEXT AND THEN PASS TABLET OVER.

BDS_INTRO_1

{If method = 1, 2 OR [Method = 3 and CASISTART=1 OR CASIINTCOM = 1] OR [Method = 4 and CASISTART = 1] } (online, secondary device, Teams online or participant reading, in home CASI)}
DISPLAY

It is now time for something slightly different.

We will show some sequences of numbers and we would like to see how well you can remember them backwards by [IF method=1 or 2 or CASISTART =1: typing / CASIINTCOM=1: saying] the sequence in reverse order. For example, if you see 1 2 3 [IF method=1 or 2 or CASISTART =1:then you would tap 3 2 1 / CASIINTCOM=1: then you would say 3 2 1] when prompted to do so. [IF CASIINTCOM=1: I will enter the numbers for you.]

These sequences will start short but will get longer. It is rare for anyone to remember all the sequences. Just do your best!

You will only see each sequence once. Please ensure you are somewhere quiet to help you focus and avoid being distracted.

The next screens will tell you more about this task and you will have a chance to practice before you start. [IF method=1 or 2 or CASISTART =1: Once started please ensure you finish the task so that your responses are recorded. It should take around 3.5 minutes to complete.]

BDS_INTRO_2

{IF method= 5 OR 8 OR [Method = 3 and CASIINTCOM=2] OR [method =4 AND CASISTART=2] (Telephone without web offered SC, Teams aided, In home aided)}

DISPLAY

It is now time for something slightly different.

I will say some sequences of numbers and would like to see how well you can remember them backwards by saying the sequence in reverse order. For example, if you hear 1 2 3, then you would say 3 2 1 when prompted to do so.

These sequences will start short but will get longer. It is rare for anyone to remember all the sequences. Just do your best!

You will only hear each sequence once. Please ensure you are somewhere quiet to help you focus and avoid being distracted.

I will next tell you more about this task and you will have a chance to practice before you start. It should take around 3.5 minutes to complete.

INTERVIEWER: PLEASE FOLLOW THE LAMINATED SCRIPT ACCORDINGLY.

SCRIPTER: link the 'Continue' button to BDS test

https://studies.testmybrain.org/demo/tests/DigitSpan_Main.v1.Feb21/DigitSpan_Main.v1.Feb21.html?order=backward

SCRIPTER: NOTE THAT THE RESPONDENT SHOULD RETURN TO THE SELF-COMPLETION ELEMENT ONCE BACKWARDS DIGIT SPAN ASSESSMENT IS COMPLETED. UPON RETURN, THE FINANCIAL LITERACY QUESTIONS SHOULD BE PRESENTED.

IF NUMBER SEQUENCE TASK SKIPPED, GO TO **FINLITNT**

NO_RESULTS

{IF METHOD = 4,5 AND NO RESULTS FOR CA IS DETECTED}

NO RESULTS HAVE BEEN DETECTED FOR THIS PARTICIPANT – PLEASE CHOOSE AN OPTION BELOW:

1. Exercise still running (e.g. next button clicked too early)
2. Exercise closed too early accidentally – retry {CA PWA re-open}
3. Exercise refused by participant – proceed with interview
4. Exercise did not launch (e.g. has not been installed) – proceed with interview
5. Other/unknown reason – proceed with interview

NO_RESULTS_WHY

{IF Main Stage and NO_RESULTS = 5 or 6}

You have told us that you cannot conduct the assessment for some reason, please can you tell us the reason.

[open box]

BDSSEND

{SCROUTING = 1}

You have completed the number sequence task, thank you. Please select 'continue' and press 'Next' to proceed.

FINLIT1

{SCROUTING = 1}

There are a few more quiz type questions.

Please don't worry if you can't answer them. Some of them are meant to be difficult.

If you are unsure of your answer please give your best estimate.

If the inflation rate is 5% and the interest rate you get on your savings is 3%, will your savings have more, less or the same amount of buying power in a year's time?

1. More
2. Less
3. The same

VARLAB: Financial literacy inflation

FINLIT2

{SCROUTING = 1}

Suppose you put £100 into a savings account with a guaranteed interest rate of 2% per year. You don't make any further payments into this account and you don't withdraw any money.

How much would be in the account at the end of the first year, once the interest payment is made?

WEB-SELF: Please enter the amount to the nearest pound (£):

If unsure, enter your best estimate.

CATI-SELF: ENTER AMOUNT TO THE NEAREST £. IF RESPONDENT IS UNSURE, PROBE FOR BEST ESTIMATE.

£ Range: 0...9999997

VARLAB: Financial literacy interest

FINLIT3

{SCROUTING = 1}

And how much would be in the account at the end of five years (remembering there are no fees or tax deductions). Would it be..?

CATI-SELF: READ OUT

1. More than £110
2. Exactly £110
3. Less than £110
4. Or is it impossible to tell from the information given

VARLAB: Financial literacy compound interest

MIG

{SCROUTING = 1}

The next two questions are about your thoughts on immigration.

Do you think the number of immigrants to Britain nowadays should be...?

CATI-SELF: READ OUT

1. Increased a lot
2. Increased a little
3. Remain the same as it is
4. Reduced a little, or
5. Reduced a lot

VARLAB: Opinion on immigration numbers

ECOMIG

{SCROUTING = 1}

LAYOUT: Answer options should be 11 numbered radio buttons displayed horizontally. Vertical layout acceptable if mobile adapted. The text “Extremely bad” should be shown below radio button 0. The text “Extremely good” should be shown below radio button 10.

On a scale of 0 to 10, where 0 is extremely bad and 10 is extremely good, would you say it is generally bad or good for Britain’s economy that migrants come to Britain from other countries?

- 0. Extremely bad
- 1.
- 2.
- 3.
- 4.
- 5.
- 6.
- 7.
- 8.
- 9.
- 10. Extremely good

VARLAB: Opinion on how immigration affects economy

BIGA-O

{SCROUTING = 1}

The following questions are about how you see yourself as a person. Please choose the number which best describes how you see yourself, using a scale from 1 to 7 where 1 means 'does not apply to {WEB-SELF: 'me'; CATI-SELF: 'you'} at all' and 7 means 'applies to {WEB-SELF: 'me'; CATI-SELF: 'you'} perfectly'.

CATI-SELF: READ OUT

I see myself as someone who...

GRID ROWS

- a. is sometimes rude to others
- b. does a thorough job
- c. is talkative
- d. worries a lot
- e. is original, comes up with new ideas
- f. has a forgiving nature
- g. tends to be lazy
- h. is outgoing, sociable
- i. gets nervous easily
- g. values artistic, aesthetic experiences
- k. is considerate and kind to almost everyone
- l. does things efficiently
- m. is reserved
- n. is relaxed, handles stress well
- o. has an active imagination

GRID COLS

- 1 Does not apply to {WEB-SELF: 'me'; CATI-SELF: 'you'} at all
- 2
- 3
- 4
- 5
- 6
- 7 Applies to {WEB-SELF 'me'; CATI-SELF: 'you' perfectly

VARLAB: BIG5 Personality traits BIGA-BIGO

GRIT1-8

{SCROUTING = 1}

Here are a number of statements that may or may not apply to you. There are no right or wrong answers, so just answer honestly, considering how you compare to most people

GRID ROWS

- 1 New ideas and projects sometimes distract me from previous ones.
- 2 Setbacks don't discourage me. I don't give up easily.
- 3 I have been obsessed with a certain idea or project for a short time but later lost interest.
- 4 I am a hard worker.
- 5 I often set a goal but later choose to pursue a different one.
- 6 I have difficulty maintaining my focus on projects that take more than a few months to complete.
- 7 I finish whatever I begin.
- 8 I am diligent. I never give up.

CATI-SELF: READ OUT

{CATI-SELF: "Would you say this is..."}

GRID COLS

1. Very much like {CATI-SELF: 'you'; WEB-SELF: 'me'}
2. Mostly like {CATI-SELF: 'you'; WEB-SELF: 'me'}
3. Somewhat like {CATI-SELF: 'you'; WEB-SELF: 'me'}
4. Not much like {CATI-SELF: 'you'; WEB-SELF: 'me'}
5. Not like {CATI-SELF: 'you'; WEB-SELF: 'me'}

VARLAB: GRIT 1-8

WELLBE

{SCROUTING = 1}

LAYOUT: Present scale vertically

The next questions are about your feelings on aspects of your life.

For each of these questions please give an answer on a scale of 0 to 10, where 0 is "not at all" and 10 is "completely".

VARLAB: Personal well-being – intro

LIFESAT

{SCROUTING = 1}

Overall, how satisfied are you with your life nowadays?

Range 0..10

VARLAB: How satisfied with life nowadays

WORTH

{SCROUTING = 1}

Overall, to what extent do you feel that the things you do in your life are worthwhile?

Range 0..10

VARLAB: Whether feels that things they do are worthwhile

HAPPY

{SCROUTING = 1}

Overall, how happy did you feel yesterday?

Range 0..10

VARLAB: How happy were feeling yesterday

ANXIOUS

{SCROUTING = 1}

How anxious did you feel yesterday?

Range 0..10

VARLAB: How anxious were feeling yesterday

CONSINTB

{IF AT LEAST ONE OF THE CONSENTS ASKED AT AGE 25 SURVEY NOT GIVEN: CONSENTALL=2}

DISPLAY

At the next few questions you can choose whether or not to give us permission to add information about you from routine administrative records. There will be an opportunity to review and confirm your permissions at the end.

After the survey we will send you an email or letter confirming the details of the permission(s) you have given. You will be able to change these permissions at any time without giving us a reason.

With your permission we will securely send your name, sex, address and date of birth and a unique study identifier to the named government departments and agencies that hold your records. If they are available, we may also send your NHS and National Insurance numbers to help identify your records. The government departments and agencies only use your personal details to find your records and will then destroy them.

We will add information from these records on an ongoing basis unless you tell us to stop.

All information collected by Next Steps, including information from your administrative records is treated in strict confidence in accordance with the Data Protection Act and the General Data Protection Regulation (GDPR). This information is collected and used for research purposes only.

{ Soft Launch: <https://nextstepsstudy.org.uk/wp-content/uploads/2022/04/Adding-information-from-your-records-Next-Steps-Age32-Survey.pdf> }

{Main Stage: <https://nextstepsstudy.org.uk/wp-content/uploads/2022/10/Adding-information-for-your-administrative-records-age-32-survey.pdf>)}

Why is the information added from health records useful?

We collect information about your health in the survey but this information is fairly limited. The information recorded in your medical records is based on confirmed diagnoses by medical professionals. However, medical records may not be entirely complete as they will not include details about problems which have not been reported to a doctor.

Combining information from the survey with information from your health records would give us a more complete picture of your health.

This information will allow researchers to answer questions such as:

- What are the lifestyle factors associated with developing particular illnesses?
- What are the impacts of particular illnesses on other aspects of people's lives such as employment, income and family life?

Why is the information added from education records useful?

Adding other information from your education records will help us understand better young people's experiences during and after leaving school and shape better education and training opportunities for young people.

Using extra details from your education records will enable researchers to carry out more detailed research on things like:

- which training routes offer the best job opportunities
- what skills and qualifications are gained after leaving school, and
- how these skills influence the later direction of your working life

Adding other information from your education records will provide crucial evidence about access to higher education for your generation which tells us more about:

- inequality and fairness relating to access to higher education
- the impact of raised tuition fees on later employment choices
- the impact of student debt on income and living standards.

Why is the information added from economic records useful?

The information you have provided in the survey allows researchers to examine a whole range of issues like the financial benefits of education and training, the importance of childhood circumstances on a person's income as an adult, and social mobility, which is the extent to which people's social class or economic status changes between childhood and adulthood.

It is very difficult to collect accurate information about income within questionnaires. The increasingly complex benefits system makes collecting information about benefit receipt particularly difficult.

We are therefore asking for your permission to gain access to the economic data held about you by HMRC and DWP. This includes information about any tax credits that you receive, your National Insurance contributions (which are critical to working out your pension entitlement), your earnings (which are used to work out your entitlement to things like tax credits, child benefit and loans for your children), benefits that you receive as well as information about your participation in DWP

programmes.

This would allow researchers to look at important questions such as:

- How well prepared are people for retirement and how does this differ between people from different backgrounds?
- Have government welfare-to-work programs over the last 15 years worked and if so for whom?
- How has the introduction of in-work tax credits had an impact on adult work decisions and child poverty?
- What are the lifetime benefits of education and training for people from different family backgrounds?

Why is the information added from criminal records useful?

Crime statistics tell us what types of crime are being committed and whether the crime rate is rising or falling. Adding information from police and criminal justice records to the Next Steps data will help researchers and policy makers to understand much more. This includes how aspects of life such as home, school, neighbourhood and peer groups affect how likely, or unlikely, people are to have contact with the police or to commit crime. Policy makers can use this understanding to develop and focus future crime prevention policies. This is important as it affects all of us, in one way or another.

Have you asked me about this before?

If you took part in the Age 25 Survey in 2015, we asked for your permission to collect information from your health, education, economic, and criminal records. This time, we only ask about the permissions we have not previously obtained from you.

What will happen if I give my permission?

- 1) Next Steps will securely send your unique study identifier (unique ID), name, sex, address and date of birth to the named government departments and agencies that hold your records. If they are available, we will also send your NHS and National Insurance numbers to help identify your records.
- 2) Your personal details will be used to help identify your records accurately. Next Steps do not send your survey responses or other information about you.
- 3) The government departments and agencies use your personal details to find your records. When your administrative records have been identified, the file containing your personal details is destroyed. These organisations will not keep any of the personal information passed on to them.
- 4) The government departments and agencies then send the information taken from your records, together with your unique ID, back to the Next Steps team.
- 5) The Next Steps team uses your unique ID to match the information from your administrative records to your survey responses.
- 6) The matched information containing survey answers and administrative information is then made available to researchers.

Your name, address, your National Insurance number will never be seen by researchers, which ensures that no one can be identified from the data.

How long will the permission last?

There is no end date on the permissions that you give as it is not known exactly when your information will be added. Next Steps will collect these records on an ongoing basis unless you tell us to stop.

How long will you keep my data?

Next Steps aims to follow your whole life's journey, and so has not set a time limit on how long the study will keep your information.

Can I change my permissions?

You can change your permissions at any time, without giving a reason. This applies for any permissions that you may have given in the past. You can find the necessary contact details in the leaflet.

What will happen if my permission is withdrawn?

If Next Steps has already added some of your information, it will continue to be used for research purposes only, but no further information from your records will be added.

VARLAB: CM data linkage FAQs

SCRIPTER: LOOP CONHSTATE TO CMCONFIRM UNTIL CMCONFIRM=1

CONHSTATE

{ASK IF CM HAS NOT GIVEN HEALTH RECORDS CONSENT AT 25: FF_NHSRecordsConsent=2}

HEALTH RECORDS

Do you give permission for your name, address, sex, date of birth, and NHS number (if held), to be passed to NHS Digital so your records can be identified and sent to the Next Steps research team to be added to your study information, and used for research purposes only?

ALL-HELPSCREEN What information will we add?

Records kept by NHS Digital include information about admissions or attendances at hospital (such as dates of admission, discharge or attendance, diagnoses received, treatments given, surgical procedures), visits to family doctor or other health professional (e.g. midwife), specific conditions (such as cancer or diabetes), and prescriptions given.

1. Why are you asking for my partner's records?
2. Have you asked me (or my partner) about this before?
3. What will happen if they give permission?
4. How long will their permission last?
5. How long will you keep their data?
6. Can I change my partner's permissions?
7. What will happen if permission is withdrawn?

(SCRIPTER: PLEASE DISPLAY QUESTIONS AND, IF CLICKED, DISPLAY THE HELP SCREEN INFO FOR EACH)

Why are you asking for my partner's records?

Your partner's experiences have a big effect on you. If, for example, they were to become seriously ill, or were to experience a long period of unemployment, this could have a significant impact on your life. We are only able to collect a very limited amount of information about your partner when we interview you, so adding extra information from their records would give us a much better

understanding of your family circumstances.

Adding information from their records will significantly increase the amount of research that can be done using Next Steps. For example, adding information from their health records will allow researchers to investigate further the impact of your partner's health on various aspects of your lives, such as your own health, employment, income, and family life.

Financial circumstances have a huge impact on many aspects of life. Information from their economic records, including earnings and benefits, will allow researchers to explore these impacts in much more detail.

Have you asked me (or my partner) about this before?

If you took part in the Age 25 Survey in 2015/16, we asked for your permission to collect information from your health, education, economic and criminal records. This time, we only ask about the permissions we have not previously obtained from you.

This is the first time we ask for permission from study members' partners.

What will happen if they give permission?

1) Next Steps will securely send their name, sex, address and date of birth to the named government departments and agencies that hold their records – along with a unique ID. If it is available, we may also send their National Insurance number to help identify their records.

2) Their personal details will only be used to help identify their records accurately. Next Steps do not send your survey responses or other information about you.

3) The government departments and agencies use their personal details to find their records. When their administrative records have been identified, the file containing their personal details is destroyed. These organisations will not keep any of the personal information passed on to them.

4) The government departments and agencies then send the information taken from their records, together with the unique ID, back to the Next Steps team.

5) The Next Steps team uses the unique ID to match the information from their administrative records to your survey responses.

6) The matched information containing survey answers and administrative information is then made available to researchers.

Their name, address, or National Insurance numbers will never be seen by researchers, which ensures that no one can be identified from the data.

How long will their permission last?

There is no end date on the permissions that they give as it is not known exactly when their information will be added. Next Steps will collect these records on an ongoing basis unless they (or you) tell us to stop.}

How long will you keep their data?

Next Steps aims to follow your whole life's journey, and so has not set a time limit on how long the study will keep their information.

Can I change my partner's permissions?

Permissions to add information from your (or your partner's) administrative records can be changed at any time, without giving a reason. This applies for any permissions that you (or your partner) may have given in the past.

What will happen if permission is withdrawn?

If Next Steps has already added some of their information, it will continue to be used for research purposes only, but no further information from their records will be added.

CAPI INTERVIEWER: IF YOU NEED HELP ANSWERING THE COHORT MEMBER'S QUESTION SELECT FROM THE LIST BELOW. IF THE QUESTION IS NOT ON THE LIST, REFER TO THE DATA LINKAGE LEAFLET FOR RESIDENT PARTNERS.

I would like to ask for your permission to speak to {PARTNAM} about adding information from their administrative records. Is {PARTNAM} currently at home and available to speak to them?

We just want to speak to {PARTNAM} at this stage – you are not giving permission on their behalf.

1. Partner at home/available
2. Partner not at home/not available
3. CM does not give permission to speak to partner or refuses on partner's behalf
4. Partner refuses to discuss records linkage

[NO DK/REF]

VARLAB: Request to speak to partner – methods 3 and 4

CONINTP

{IF Soft Launch and partner at home/available: PAHH = 1}

INTERVIEWER – YOU SHOULD BE SPEAKING TO PARTNER NOW

As you know, {FF_CM_FirstName} has been taking part in Next Steps since they were 13/14 in Year 9. The study aims to explore how people's circumstances and experiences at one point in time affect their later lives.

We have asked {FF_CM_FirstName} some questions about you in the survey, because your circumstances will have a significant impact on {FF_CM_FirstName}'s life. However, with your permission we would like to add some additional information about you from health records routinely collected by NHS Digital and economic records collected by Her Majesty's Revenue and Customs (HMRC) and the Department for Work and Pensions (DWP) so that we can add it to the information we have collected about your partner over the years.

Adding this information will give us a much better understanding of {FF_CM_FirstName}'s family circumstances.

The 'Adding Information From Your Administrative Records' (Information for Resident Partners)' booklet tells you more about this.

(SCRIPTER: Add hyperlinks to the 'Adding other information booklet'

<https://nextstepsstudy.org.uk/wp-content/uploads/2022/04/Information-for-resident-partners-Next-Steps-Age32-Survey.pdf> and 'video')

1. Continue

2. (SCRIPTING: Visible for in home only, hidden code for Teams on initial screen): Partner refuses to continue with records linkage

VARLAB: Data linkage intro - partner

CONINTPB

{ASK IF Soft Launch and partner at home/available: PAHH = 1 and CONINTP=1}

At the next few questions you can choose whether or not to give us permission. There will be an opportunity to review and confirm your permissions at the end.

After the survey we will send you a letter confirming the details of the permission(s) you have given. You will be able to change these permissions at any time without giving us a reason.

With your permission we will securely send your unique study identifier, your name, sex, address and date of birth to the named government departments and agencies that hold your records. If you share this with us, we may also send your National Insurance number to help identify your records. The government departments and agencies only use your personal details to find your records.

We will add information from these records on an ongoing basis unless you tell us to stop.

All information collected by Next Steps, including information from your health and economic records is treated in strict confidence in accordance with the Data Protection Act and the General Data Protection Regulation (GDPR). This information is collected and used for research purposes only.

VARLAB: Partner data linkage FAQs

CONINTPFAQSMORE1

{IF Soft Launch and CONINTPFAQS = 1}

1. Why is adding this information useful?

Your experiences have a big effect on your partner. If, for example, you were to become seriously ill, or were to experience a prolonged period of unemployment, this could have a hugely significant impact on their life.

We are only able to collect a very limited amount of information about you when we interview your partner, so adding this information will give us a much better understanding of their family circumstances.

Adding information from your records will significantly increase the amount of research that can be done using Next Steps. For example, adding information from your health records will allow researchers to investigate further the impact of the health of partners on various aspects of study members lives such as their own health, employment, income, and family life.

Financial circumstances have a huge impact on many aspects of life. Information from your economic records, including earnings and benefits, will allow researchers to explore these impacts in much more detail.

CONINTPFAQSMORE2

{IF Soft Launch and CONINTPFAQS = 2}

2. Have you asked me (or my partner) about this before?

We asked study members for permission to collect information from their health, education, economic, and criminal records in the Age 25 Survey in 2015/16. This time, we only ask about the permissions they have not previously given.

This is the first time we ask study members' partners about this.

CONINTPFAQSMORE3

{IF Soft Launch and CONINTPFAQS = 3}

3. What will happen if I give permission?

a) Next Steps will securely send your name, sex, address and date of birth, along with an unique study identifier (unique ID), to the named government departments and agencies that hold your records. If you have provided your National Insurance number, we will also send this to help identify your records.

b) Your personal details will only be used to help identify your records accurately. Next Steps do not send any survey or other information about you.

c) The government departments and agencies use your personal details to find your records. When your administrative records have been identified, the file containing your personal details is destroyed. These organisations will not keep any of the personal information passed on to them.

d) The government departments and agencies then send the information taken from your records, together with your unique ID, back to the Next Steps team.

e) The Next Steps team uses your unique ID to match the information from your administrative records to your partner's survey responses.

f) The matched information containing survey answers and administrative information is then made

available to researchers.

Your name, address, or your National Insurance number will never be seen by researchers, which ensures that no one can be identified from the data.

CONINTPFAQSMORE4

{IF Soft Launch and CONINTPFAQS = 4}

4. How long will the permission last?

There is no end date on the permissions that you give as it is not known exactly when your information will be added. Next Steps will collect these records on an ongoing basis unless you tell us to stop.

CONINTPFAQSMORE5

{IF Soft Launch and CONINTPFAQS = 5}

5. How long will you keep my data?

Next Steps aims to follow study member's whole life's journey, and so has not set a time limit on how long the study will keep your information.

CONINTPFAQSMORE6

{IF Soft Launch and CONINTPFAQS = 6}

6. Can I change my permissions?

You can change your permissions at any time, without giving a reason.

You can find the necessary contact details in the "Adding Information From Your Administrative Records" booklet.

CONINTPFAQSMORE7

{IF Soft Launch and CONINTPFAQS = 7}

7. What will happen if my permission is withdrawn?

If Next Steps has already added some of your information, it will continue to be used for research purposes only, but no further information from your records will be added.

CONINTPFAQSMORE8

{IF Soft Launch and CONINTPFAQS = 8 or CONINTP = 2 OR CONINTPB = 2}

If you want more time or information to decide then we can send your partner some further information about this to pass on to you. It will include a link to an online form in which you will be able to tell us if you are happy or not to give these permissions. Would it be ok to send your partner this information?

1. Send partner this information by email or post
2. {ONLY DISPLAY IF CONINTPFAQS = 8} I would not like more time or information - I would like to continue now and tell you which permissions I would like to give

Module 10: Saliva

SALCONINTRO

{ ASK IF NATIONRES <> 5 }

We would like to ask you to provide a saliva sample {Soft Launch: “for research purposes only”; Main Stage: “so we can analyse your DNA for research purposes”}.

With your permission we will provide you with a saliva collection kit. This will include a tube which you will need to spit into. You will only need to provide about half a teaspoon of saliva. It is very easy to provide a saliva sample and only takes around 10 minutes. If you agree, the pack we provide you will have full instructions about how to provide the sample and we’ll include a prepaid envelope for you to post it back to us.

To thank you we will send you an additional £10 once we have received your sample.

VARLAB: Saliva introduction text

SALCONB

{ ASK IF NATIONRES <> 5 }

We sent you an information leaflet called “{Soft Launch: “Saliva Sample – Things To Know”; Main Stage: “Why should I give a saliva sample?”}, in the same mailing as the Survey Information Leaflet.

Have you read this leaflet?

1. Yes
 2. No
 3. I did not receive the leaflet
- [NO DK/REF]

VARLAB: Saliva information check

SALINFO

{ASK IF SALCONB = 2,3}

WEB: Please read the following information carefully.

TEAMS: PLEASE READ THE FOLLOWING INFORMATION CAREFULLY

CAP INTERVIEWER: PLEASE READ VERBATAM

CAT INTERVIEWER: PLEASE READ VERBATAM

{Soft Launch: “Why does we want a DNA sample?

We will ask for your permission to extract, analyse and store DNA from your saliva sample for research purposes only.

Research shows that an increasing number of illnesses have a genetic component. Genetic researchers can identify genes linked to certain conditions by combining information about your DNA with all the other information we have collected about your health and lifestyle. This will help with understanding who is most at risk of certain illnesses and conditions, which may in turn lead to improved diagnosis, treatment and disease prevention.}

{Main Stage: **“Why do we want a DNA sample?”**

We would like to ask if you would provide a saliva sample so we can analyse your DNA.

DNA is the set of instructions for how our bodies are put together. Our DNA can determine whether we develop certain health conditions, but our behaviour, housing, finances and other factors matter too. Combining all these different things in one study can help reveal what’s driven by our genes, what isn’t, and how our genes and environment work together.

There are few studies in the world like Next Steps, that collect a broad range of information over time to try and understand the whole person. DNA is an important piece of this puzzle. By combining information about genes with the answers to the survey questions, Next Steps can paint a fuller picture of your generation.

We will send you a £10 voucher when we receive your sample.”}

{Soft Launch: **“What will the stored DNA samples be used for?”**

The stored DNA samples will be used for research purposes only. They cannot be accessed by lawyers or insurance companies and will not be used for cloning. Any future analysis will be done at the specialist storage facility or at another laboratory, which may be outside the UK. This could include research by the commercial sector. We will not sell or make any profit from the samples you donate. However, if researchers need samples to be sent to another laboratory, then a charge may be made to cover the cost of transportation.

Researchers who want to use your DNA will have to apply for permission to the Centre for Longitudinal Studies (CLS), which oversees Next Steps and access to the samples and resulting data. Permission to use the samples and resulting data is only given to genuine researchers who can explain the potential impact of the research and its wider value for society ; to research which meets ethical guidelines.

The anonymised samples will be treated in strict confidence in accordance with the General Data Protection Regulations (GDPR).”}

{Main Stage: **“How will my DNA be accessed and stored?”**

The stored DNA samples will only be used by researchers. They cannot be accessed by lawyers or insurance companies. They will also not be used for cloning.

Your samples will also be stored securely and anonymously. Researchers who want to use your DNA or the resulting data will need to apply for permission to the Centre for Longitudinal Studies (CLS) which oversees Next Steps.

We have a strict data access policy for your samples, and only give permission to researchers who can demonstrate that their work is ethical and of scientific and societal benefit. We may grant approval to research by the commercial sector, for example a healthcare organisation testing new treatments, but we will not sell or make any profit from the samples you donate.

Researchers will only be allowed to use the samples at the specialist storage facility or at another similar laboratory, which may be outside the UK. If researchers need us to send samples to another laboratory, we may charge them for the cost of transportation.

The anonymised samples will be treated in strict confidence in accordance with the General Data Protection Regulations (GDPR).”}

Do you have to give a sample?

No, like all parts of the survey, it’s completely voluntary.

{Soft Launch: **“ Can you find out the results?”**

We will not routinely feedback any results from genetic analysis. The tests that will be done on your DNA are for research purposes. These tests are not the same as clinical genetic tests and cannot be

used for individual diagnosis. If, however, through the course of the research we find something that we think could indicate a preventable medical issue, we would attempt to contact you and advise you to consult with a medical professional.}

{Main Stage: **“Can you find out the results?”**}

The tests that will be done on your DNA are for research purposes, and are not the same as clinical genetic tests. The results cannot be used for individual diagnosis. As such, we will not routinely feed back your individual results, but we will share the broader findings from the research with all study members, in our regular mailings and on our website.”}

What happens to your sample after you post it back?

DNA will be extracted and stored securely at a laboratory at the University of Bristol. Your sample will be labelled with a unique ID number so that results of any testing can be linked with the other information we hold about you. The laboratory will not have access your name and address or any other information the study holds about you.

{Soft Launch: **“What do you get back?”**}

For your help we will give you an additional £5 voucher, on receipt of the sample.”}

{Main Stage: **“What do you get back?”**}

For your help we will give you an additional £10 voucher, when we receive your sample. “}

What if you change your mind after you have given a sample?

You can withdraw your consent for your DNA to be stored and used for research purposes at any time, without giving any reasons, by writing to us at the:

Centre for Longitudinal Studies

UCL Social Research Institute

20 Bedford Way

London WC1H 0AL

Or by email at: nextsteps@ucl.ac.uk

We will inform the laboratory and any remaining stocks of your DNA will be destroyed.

{IF WEB OR Secondary device: Please ensure you have read the leaflet before continuing. You can find a copy of the leaflet here: {Soft Launch: [“https://nextstepsstudy.org.uk/wp-content/uploads/2021/10/Age-32-Survey-Saliva-sample-Things-to-know.pdf”](https://nextstepsstudy.org.uk/wp-content/uploads/2021/10/Age-32-Survey-Saliva-sample-Things-to-know.pdf); Main Stage: [“https://nextstepsstudy.org.uk/wp-content/uploads/2022/10/why-should-i-give-a-saliva-sample-age-32-survey.pdf”](https://nextstepsstudy.org.uk/wp-content/uploads/2022/10/why-should-i-give-a-saliva-sample-age-32-survey.pdf).}

SALCONC

{ ASK IF NATIONRES <> 5 }

Do you consent to giving a saliva sample for DNA extraction, analysis and storage for research purpose?

By saying ‘Yes’ you are confirming that:

- You have read and understood the information provided about giving a saliva sample.
- You have had an opportunity to ask questions.
- You understand that providing a saliva sample is completely voluntary.
- You understand that you can decline to provide the saliva sample at any point.
- You understand that DNA will be extracted from your saliva sample and will be stored for research purposes.
- You understand that your DNA can be accessed and transported, including overseas for future analysis.
- You understand that this consent remains valid unless revoked in writing by contacting Next Steps, Centre for Longitudinal Studies, UCL Social Research Institute, 20 Bedford Way, London, WC1H 0AL or by email at nextsteps@ucl.ac.uk

We hope taking part in our survey has been a positive experience, but if it leaves you worrying about anything that's happening in your life, there are organisations you can talk to. Should you require them, contact details for sources of support can be found on the study website: <https://nextstepsstudy.org.uk/home/surveys/age-32-survey/faqs/about-the-age-32-survey/>. You can also contact the Next Steps team at the Centre for Longitudinal Studies: <https://nextstepsstudy.org.uk/home/contact-us/>
